

Ramon Soler® at InteriHOTEL

The collection on show in Barcelona

Leído 340 veces

19/10/2017 - This year at **InteriHOTEL** Barcelona, **Ramon Soler®** faucet brand will present the latest innovations for a sector that evolves in design, technology and innovation, among which stand out:

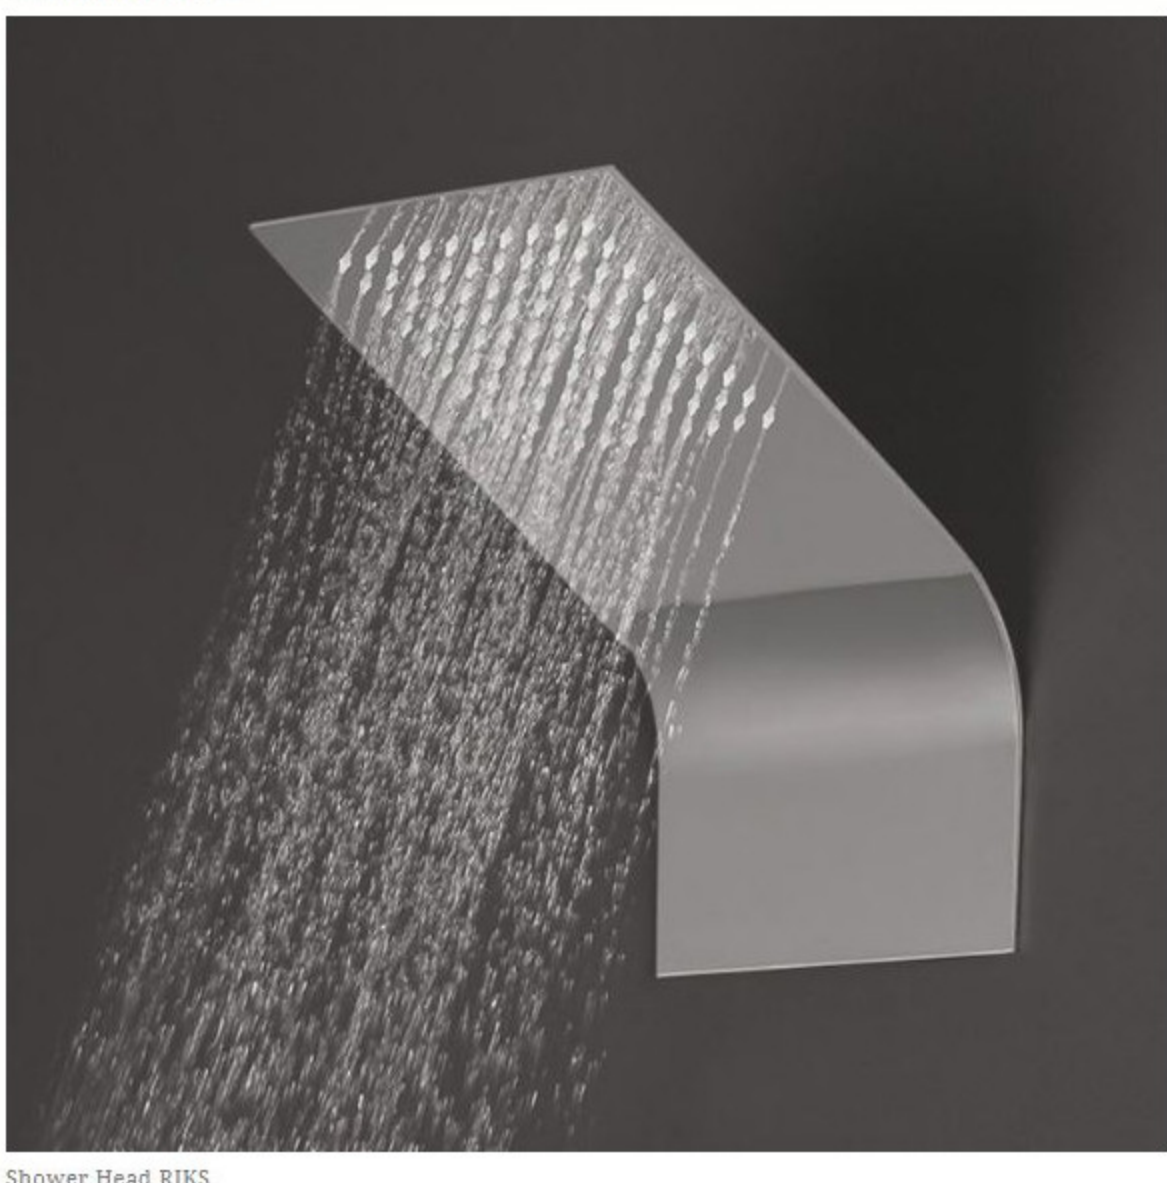

Innovative waterfall spout for washbasin

DRAKO by Ramon Soler

Ramon Soler® presents an exclusive spout to be recessed in the wall of the sink, made entirely in stainless steel. Its design is minimalist and very chic, it is a superfine spout that combines perfectly with the single handles of the brand. It is an important innovation for its versatility and its spectacular waterfall, in which the brand combines aesthetics, technology, innovation and quality, offering a revolutionary design for the bathroom, taking a step towards to the concept of wellness.

Shower Head RIKS

Shower Head RIKS

RIKS is a shower head made entirely of polished stainless steel of extremely thin thickness and volume of pure lines: it presents an elegant curve, where the nozzles appear through which the water will fall with a pleasant rain effect. Its striking shape fits perfectly in bathrooms of latest trend, both contract and residential. Also, **RIKS** by **Ramon Soler** has passed the strict European control tests and has exclusive systems: **ANTI-LIME**, to provide better performance of the shower head, it has flexible silicone nozzles so that lime and impurities are easily detached, and **SHOWER SYSTEM**, a shower head system that allows a perfect distribution of water through each nozzle.

BOLD by Ramon Soler®

BOLD by Ramon Soler

The shower head **BOLD** has been designed from a sphere of perfect proportions resulting in a captivating design. Available for two types of installations, with a ceiling arm which holds the shower head providing a unique elegance or from a wall arm for which **Ramon Soler®** goes further and designs an original arm that follows the curved lines, with a unique balance.

A shower head with its own character capable of capturing the attention of the most demanding and fit perfectly into projects that need a design that adds value to the bathroom. Its lines and the fact of being a **polished stainless-steel** shower head with chrome effect, make it a suitable element for different aesthetics of baths. **BOLD** is suitable for design spaces... is a shower head capable of creating a unique style.

ALEXIA by Ramon Soler®

ALEXIA by Ramon Soler

ALEXIA is a collection of slender and inspiring aesthetics designed by **Carmen Barasona**. The collection fits perfectly with the different needs when it comes to creating a washbasin. It offers a single handle in four sizes **XL L M S**, perfect for both a traditional sink and a minimalist washbasin. **ALEXIA** is inspired by conical and ergonomic shapes, paying special attention to every detail of the faucet, thus achieving a delicate effect with a conical spout that just crowned by a handle of smooth lines.
