## Meeting of the TCI Learning Group “Smart Digital Ecosystems through Clusters” in Barcelona

20 June 2019 |

The TCI Learning Group “Smart Digital Ecosystems through clusters” met on 27-28 May in Barcelona, hosted by ACCIÓ, the Catalan Agency for Business Competitiveness. The group learnt and shared knowledge about digital changes, including changes in cluster boundaries, cluster roles, cluster organizations. After a first introduction to the importance of digitization in cluster development in Catalonia by Joan Martí, the digitization practitioners had the opportunity to visit the co-working space of Catalan Clusters – Espai Catalonia Clusters and see an example of digital cluster, Edutech Cluster and a digital project by CENFIM home and contract furnishing cluster. The group also visited Pier01 Barcelona Tech City. Materials from the meeting available on [Slideshare](#).
